ABOUT US

MAKSAN TARIM was founded in 2010 in Bursa for produce spare part of milking machines. MAKSAN firstly produced the hose of milking machines and in the advancing years diversifying range of products in line with customer demands.

MAKSAN TARIM, which has increased its spare parts then started producing complete milking machines in line with the demands of its customers and quickly became one of the leading companies in the industry.

It managed to produce approximately %80 of the plastic rubber and pvc parts used in the milking machines within its own structure and MAKSAN TARIM continues on its way with an upward momentum without sacrificing quality.

When we look today MAKSAN TARIM which has become a company exporting to more than 200 sales points and 30 different countries in our country meets the demands of its customers with care.

Continuing its path in this direction MAKSAN TARIM plants to produce %100 of the milking machine in the near future.
